Task 1: Create GitHub Account

In this task you will create GitHub account.

Step 1: Create GitHub Account

1. **From** your **Local Desktop/ Laptop Browser**, **Open** the **below URL**.
<https://github.com/>
2. Select **Sign up**.
 - a. In the **Signup** section, type:
 - i. **Enter your e-mail**: Write your **email Id**.
 - 1) Select **Continue**.
 - ii. **Create a password**: Write the **password**.
 - 1) Select **Continue**
 - iii. **Enter a username**: Write unique **user name**.
 - 1) Select **Continue**
 - iv. **Receive occasional product updates and announcements**: **Enable** the **Checkmark**.
 - 1) Select **Continue**

The screenshot shows the GitHub account creation interface. It starts with a welcome message: "Welcome to GitHub! Let's begin the adventure". The form has several sections: "Enter your email*" with a green checkmark and the email "cloud.guru100@outlook.com"; "Create a password*" with a green checkmark and a masked password "....."; "Enter a username*" with a green checkmark and the username "cloudguru100"; and "Email preferences" with a checked checkbox for "Receive occasional product updates and announcements." and a "Continue" button.

- v. **Complete the Process to verify your account.**
- vi. In the **Unlock advanced features with GitHub Team or continue with a free plan for the basics** section:
 - 1) Select **Continue for free.**

Note: You can see the **Dashboard**.
